Caitlin John, LLC became a registered investment adviser with the SEC as of June 26, 2017.

Principal Owner

The Firm is structured as a limited liability company and Ronald J. Briggs Jr., FIC, CRPC is the sole owner and managing Member.

B. Advisory Services

The Firm offers services that may incorporate any or all of following: 1) Investment Management Services 2) Financial or other types of Planning Services 3) Consulting & Advisory Services, also referred to as Assets Under Advisement (AUA), and 4) Qualified Retirement Plan Services. Our goal is to offer customized advisory services for a Client and/or Clients based on their needs, goals, objectives, and risk tolerance. These services are provided to the Client by the Investment Advisor Representatives, hereafter referred to as the “IAR”, of the Firm. The IAR will assist the client in selecting the service appropriate for the Client’s personal situation.

IARs may have their own legal business entity or entities. Trade names and logos may be used on Firm approved marketing materials. Clients should understand that the businesses are legal entities of the IAR. The Firm and the IAR’s business entity are independently owned and operated and not affiliated with the Firm. The IARs are registered with the Firm and are under the supervision of the Firm. Asset Management and Advisory Services are offered through the Firm by IARs of the Firm.

Investment Management Services

Before investing, the IAR will work with the Client to establish their Goals, Objectives, and Risk Tolerance, then applying a customized approach to the Advisory, Financial Planning and Asset Management needs of each Client. The IAR may recommend and help establish the Client accounts, implementing various types of investment products, asset class securities along with fixed insurance products to help achieve their objectives. Depending on the types of services required by the Client, the Firm may engage the services of a Third-Party Investment Advisor (“TPIA”). The Client understands and acknowledges that any restrictions placed on the management of their account imposed by the Client, including restrictions in a category or categories of securities due to social screening or other restrictions, may cause account performance to deviate from the performance of the Client’s chosen portfolio. The Client, at any time, can accept or decline any investment recommendations from their IAR. IARs may offer to the general public educational workshops and seminars, on general investment strategies, concepts, and/or retirement planning principles. These seminars are given to assist in educating the general public, fostering greater financial literacy and interest in the services offered by the IAR. Materials, if any, provided during such events are intended to be strictly educational in nature and are not intended as specific individual Investment or financial advice.

Financial or other types of Planning Services

The Firm offers the Client various levels of planning services (“Plan”) to help quantify their long-term financial needs and objectives. The IAR will determine whether or not the Client will incur a fee for this service, which will disclose the fee prior to the Client entering into the appropriate fee for service “Planning Agreement” (see below for more details).

The planning process is customized to the Client’s current overall financial circumstance and their long-term financial needs, goals, objectives, and risk tolerance. Once established, the IAR may design and propose various investment products, concepts, and strategies to help achieve the objectives of the Plan. The Client is under no obligation to act upon the IAR’s recommendations. If the Client chooses to act on any of the recommendations, the Client is under no obligation to affect any transactions through the Firm. It is ultimately the responsibility of the Client to implement the components of each Plan with or without the IAR at the Client’s discretion.

In some cases, the IAR may refer Client to other vetted independent professionals, such as attorneys or accountants, for their non-conflicted expertise. The Firm will work and communicate with such independent professionals with the Client’s specific written authorization only.

Once the Client’s initial Plan has been completed, the Client may choose to implement ongoing planning services (“Ongoing Planning”) for further assistance. The IAR will determine whether or not

the Client will incur a fee for this service and disclose the fee prior to the Client entering into an Ongoing Planning Agreement (see below for more details).

The Client is under no obligation to initiate the Ongoing Planning services once the initial Plan has been completed.

Consulting & Advisory Services

By a loose definition, Assets that are considered to be held-away are accounts that are not currently or actively managed by a TPIA, IAR, institution, or custodian. The IAR can review, leverage, and aggregate such held-away assets as a preferred method of providing strategic advice for the Client, such as assets under management. Such held-away assets can include but not limited to self-directed investment, alternative investments, variable insurance products, and retirement plans such as 401(k)s & 403(b) plans, etc. This service can be in conjunction with the Firm’s other various advisory services such as asset management services, financial planning, and consulting services. For further details, please refer to the AUA agreement.

Retirement Plan Services

The Firm offers investment management services to various qualified retirement plan services, such as, but not limited to 401(k), 403(b), etc. These types of plans are generally organized by the Plan Sponsor for their Plan Participants. Plan participants are the employees enrolled in the qualified retirement plans and may seek individualized advice independent of their plan sponsor.

The Firm’s IARs work closely with Plan Sponsors and Participants, providing advisory services and support for accounts governed by the Employee Retirement Income Security Act of 1974 (“ERISA”). Additionally, the IAR may employ a Third-Party Investment Advisors, herein after referred to as “TPIA”, to provide portfolio management services of the plan assets. The Firm, it’s IAR, and/or the TPIA may partially act or assist the Plan Sponsor in a fiduciary capacity under Section 3(21) or 3(38) of ERISA. For further details, please refer to the Retirement Plan Service agreement.

The Firm does not hold any assets of the plan but rather such assets are held by an independent custodian selected by the Plan Sponsor. The IAR, working with the TPIA for the plan, may provide, but not limited to, the assistance of creating plan guidelines, participant education, asset management services, removal and/or replacement of the plan’s investment options, and ongoing support and servicing the plan as directed and agreed to by the Plan Sponsor. Separately Managed Accounts

Separately Managed Accounts, hereafter known as “SMAs”, are made available through TPIAs to the Client within a Wrap Program and/or Unwrapped Fee arrangement. Each SMA offers a unique investment strategy and may be considered for investment based on the Clients specific individual factors. IARs have the ability to access and offer various SMAs made available through the custodians’ platform.

The Firm is the sponsor of its Wrap Fee Program known as the Caitlin John Wrap Fee Program (“CJWFP”). The Firm receives a portion of the fees charged through its wrap fee program. The CJWFP is based on a single negotiable fee, not to exceed 2.48%, based on the overall Client’s needs and services for advisory services, investment management oversight, administrative and custodial services/fees, and includes the use of services by a TPIA. No amount of analysis or diversification can wholly account for or eliminate market volatility and systematic risk. Investment strategies will be subject to methods of analysis by the TPIA, the Firm and/or its IARs as described herein.

A. Methods of Analysis

Methods of analysis and investment strategies include charting, fundamental, tactical, cyclical, and technical analysis, independent research, and asset allocation implementation strategies. Proprietary programs and software may be used to identify market points where either “buy” or “sell” signals are recognized. These signals assist the portfolio managers and/or IAR’s in implementing the specified management strategies of the various managed programs. Quantitative analysis can also be used when analyzing securities. This analysis uses current and historical pricing information to help identify trends in both the domestic and foreign equity and fixed income markets. Technical indicators such as moving averages and trend lines may be further used to identify entry and exit points. Various fundamental data such as overall economic conditions, industry outlook, interest rates and political climate are also considered.

The Firm and its IARs methods of analysis may include some of the following criteria: analysis pertaining to the selection of Third-Party Portfolio Managers to be made available within the Wrapped Fee Program, as well as the following criteria: income, risk tolerance, sector, market capitalization, long term needs and objectives.

B. Investment Strategy

The Firm’s Client may participate in a variety of strategies which generally fall into either of the following categories: active, passive or a combination of both investment management styles.

Active Investment Management

Active asset management may entail periodic evaluation and investment selection in accordance with the goals and objectives of each Client. The Client will have two options to participate in active investment management, either by their IAR or a TPIA or a combination thereof within the Firm’s Wrap Fee program. For detailed information on active investment management please discuss with your IAR and/or read the ADV of the TPIA before investing.

Passive Investment Management

Passive asset management entails selecting investments based on appropriateness with regards to each Client’s risk tolerance, goals, and objectives.

Once investments are chosen, they are usually held for the long term and only replaced and/or rebalanced as appropriate with regards to changing market conditions and/or the IAR or TPIA’s management style. For detailed information on passive investment management please discuss with your IAR and/or read the ADV of the TPIA before investing.

IARs may use several investment strategies, securities, products, and concepts to best help implement and achieve each Client goals, objective and risk tolerance including but not limited to:

- Long-term purchases (more than one year)
- Short-term purchases (less than one year)
- Fixed Insurance products
- Relative value
- Long/short & Leveraged ETFs & Mutual Funds
- Tactical rotation
- Sector rotation
- Alternative investments
- Options Strategies

The Firm also analyzes the type of investment strategy each TPIA provides. The Firm will determine if that strategy is an effective vehicle to achieve particular investment objectives and if the strategy is within the broad risk tolerances of the Client.

Third-Party Portfolio Manager or TPIA Review:

Third-Party Portfolio managers (TPIA) and Sub-Advisors providing sub-advisory services to the Firm's Client(s) are reviewed periodically to determine their ongoing utility to the Firm, IAR, and the Client. The criteria may include but are not limited to: review of current and past performance history, investment costs, assets under management, MAR ratios (measurement of returns adjusted for risk) and other methods of review.

C. Risk of Loss

Investment Risk

The Client should consider the investment objective, risks, charges, and expenses carefully before investing. The strategies and analyses detailed above involve exposure to risks, as there is no guarantee that any investment model or strategy will achieve its stated investment objectives, including the possible loss of the principal amount invested. Investments are not FDIC insured, may lose value, and have no bank guarantees.

IARs will receive commissions and may receive other incentives paid directly from the insurance carrier. These commissions are in addition to and separate from the advisory fees charged. This creates a monetary conflict through the benefit of common control of Elite Advisors Edge, which is owned by Kristin Briggs, spouse of Ronald J. Briggs, Jr., the Founder, Principal, and an IAR of Caitlin John, LLC. These conflicts are mitigated because clients are not obligated to implement insurance product recommendations made by the IARs. Additionally, the Firm does not receive any commission compensation for the sale of insurance products by its IARs from the IMO. As a fiduciary, the Firm's IARs will act in the best interest of the Client, independent of the amount of commission received.

Under unique and rare circumstances, IARs may qualify for a forgivable loan that may be offered by Firm. This loan is independent of the IAR and does not increase any fees charged to the Client. In order for a qualifying IAR to have their loan forgiven, they must meet certain production and length of service requirements. As such, this may create a conflict of interest as IARs may be incentivized to advise you to maintain your assets within advisory service programs or accounts in order to fulfill the terms of the forgivable loan. This conflict is mitigated because the IAR must act in a fiduciary capacity at all times.

Ronald J. Briggs, Jr. is the Founder, Owner, & Chief Investment Strategist of A Smarter Way To Invest, Inc. ("ASWTI"). ASWTI is a TPIA and a SEC registered investment advisor firm which solely offers asset management services to Registered Investment Advisory Firms. It grants such Firms access to ASWTI's various proprietary and non-proprietary dynamic asset allocation strategies and investment models. The Firm's IARs may recommend ASWTI's portfolio management services to the Client. This may create a conflict due to the fact that Ronald J. Briggs, Jr. is also the owner of Caitlin John, LLC which will financially benefit from the Client's assets being placed with ASWTI. This conflict can be mitigated as the Firm's IARs working with the Client can choose from numerous third-party money managers/sub-advisors, which may be managed or overseen by A Smarter Way to Invest and/or made available to them by the Firm through the custodial and other third-party platforms.

The Firm will not refer Client(s) to any Sub-Advisor or Third-Party Money Manager that is not appropriately registered.

All Services and Support Persons of the Firm are employed through a single management company called Entry Point Advisor Network ("EPAN"). EPAN is owned under common control by Kristin Briggs, spouse of Ronald J. Briggs. EPAN employs business development advisors to recruit, support, and service IARs of Caitlin John, LLC. These internal business development advisors are both W-2 and 1099 employees and receive compensation in the form of a salary. Part of this compensation may reflect compensation based on the total AUM of the Firm or IARs they support.

D. Advisor Recommendations

The Firm may recommend other TPIAs for the Client as stated above. The Firm may receive compensation directly or indirectly from outside TPIAs. Please see **Item 10.C. Relationship/Conflicts** for further details.

Item 11 - Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Our Firm has adopted a Code of Ethics (“COE”) which sets forth high ethical standards of business conduct that we require of our personnel, including compliance with applicable federal securities laws.

The Firm and our personnel owe a fiduciary duty, loyalty, fairness, and good faith towards the Client. They have an obligation to adhere not only to the specific provisions of the COE but to the general principles that guide the COE.

Our COE includes policies and procedures for the review of quarterly securities transactions reports as well as initial and annual securities holdings reports that must be submitted by the Firm’s access persons. Among other things, our COE also requires the disclosure of any acquisition of securities in a limited offering (e.g., private placement) or an initial public offering. Our code also provides for oversight, enforcement, and record-keeping provisions by the Firm’s Compliance Department.

The Firm's COE further includes the Firm's policy prohibiting the use of material non-public information relating to the Client’s account portfolios or transactions of the Firm. While we do not believe that we have any particular access to non-public information, all Firm personnel are reminded that such information may not be used in a personal or professional capacity. Any Firm personnel will not disclose any non-public information relating to the business or operations of the Firm unless properly authorized to do so.

A copy of our Code of Ethics is available to our advisory Client and prospective Client. You may request a copy by email sent to info@cjadvisor.com, or by calling us on (810) 355-1325.

B. Material Financial Interest and Conflict of Interest

The Firm’s IARs and Access Persons may buy or sell securities for themselves through the same and/or a non-associated custodian of the Firm with prior approval and ongoing statements forwarded to the firm. We monitor such transactions for compliance with the provisions of Section 206(3) of the Advisers Act governing principal transactions for the advisory Client.

The Firm’s IARs and Access Persons currently have no material financial interest in any publicly traded securities. IARs and Access Persons shall avoid any action, whether for personal profit or otherwise, that results in a conflict of interest with the Firm’s Client’s accounts, or which may otherwise be detrimental to the interests of the Client of the Firm. The Firm’s IARs and Access Persons will not attempt to improperly use influence for their personal benefit.

Our Code of Ethics is designed to assure that the personal securities transactions, activities and interests of our employees will not interfere with (i) making decisions in the best interest of our advisory Client and (ii) implementing such decisions while, at the same time, allowing employees to invest for their own accounts.

Our Firm and/or individuals associated with our Firm may buy or sell for their personal account securities identical to or different from those recommended to our Client or TPIA. In addition, any related persons may have an interest or position in certain securities which may also be recommended to the Client.

At no time will the Firm or any associated person of the Firm transact in any security to the detriment of any Client. The Client’s needs are considered first.

C. Same Securities Purchase and Conflicts of Interest

The Firm and it’s Access Persons may buy or sell securities that are also held by the Client. In order to mitigate conflicts of interest such as front running, Access Persons are required to disclose all reportable securities transactions, including the size of trade and when they wish to buy or sell the

securities to the Compliance Department. All Access Persons using a non-associated custodian must forward all brokerage account statements to the Compliance Department.

D. Client Securities/Trades and Concurrent Firm Securities Transactions - Conflicts of Interest

The Firm does not maintain a Firm proprietary trading account and does not have a material financial interest in any securities being recommended. However, Firm Access Persons may buy or sell securities at the same or later times they buy or sell securities for the Client. In order to mitigate conflicts of interest such as front running, employees are required to disclose all reportable securities transactions as well as provide the Firm with copies of their brokerage statements.

Item 12 - Brokerage Practices

A. Soft Dollar Benefits

The Firm does have access to various research and tools as a soft dollar benefit from TD Ameritrade Institutional. Because the Firm receives such soft dollar benefits, the Firm may have an incentive to select or recommend a particular broker dealer based on interest in receiving such research and tools made available. The Firm does not charge the Client brokerage commissions or additional fees of any kind to obtain these benefits.

The Firm may recommend other custodians or Trust companies for certain asset types and self-directed IRA's not able to be held at our current custodian.

B. Brokerage for Client Referrals

The Firm does not currently receive any Client referrals from any broker-dealer or Third-Party.

C. Directed Brokerage

The Firm will not refer Client(s) to any Sub-Advisor or Third-Party Money Manager that is not appropriately registered.

The Firm uses TD Ameritrade Institutional for each Client's brokerage account. TD Ameritrade Institutional is used for the purposes of trade execution and custodial management. Additionally, certain TPIA programs are only made available on this platform. While the Client may find similar or unique programs offered elsewhere, the Client choosing to use certain TPIAs may find that their services are limited to certain custodians. Even though the IAR has the obligation, as a fiduciary, to best execute the Client's trades and transactions, it is possible that the IAR may not be able to achieve the most favorable execution of the Client's transactions in every case. This practice may or may not cost the Client more or less money. The Firm's IARs and TPIAs, acting as fiduciaries, will always act in the best interest of the Client and will always try to achieve the best possible trade execution on behalf of all Client accounts.

D. Aggregate of Client Trades

TD Ameritrade Institutional allows the Firm's IARs to aggregate the Client orders using omnibus trading (block trades) for the discretionary purchase and sale of securities in their models and allocations. TD Ameritrade Institutional allows for the aggregation of orders for any of the Firm's IARs managing their Clients accounts.

In certain circumstances, the Firm's IARs may, to best serve the Client, place non-aggregated individual trading orders. Non-Aggregated orders may be placed for an individual Client to meet the Client asset management strategy and other needs including but not limited to distributions, Required Minimum Distributions ("RMD"), unusual/extraordinary circumstances, raise cash, or at the request from a Client. The Client may incur additional costs by not aggregating their trade orders.

Item 13 - Review of Accounts

The Firm's IARs are expected to have an investment account review with each Client, on a regular basis. The Client may request additional reviews by contacting their IAR. Additionally, reviews can be requested by the Client with their IAR anytime in order to inform them of a life changing event that may affect a change to the following criteria: income needs, risk tolerance, a change in their long-term needs, goals, or objectives.

The Client can review the status of their accounts at any time by going online to www.advisorclient.com to review their portfolio, statements, tax information, trade & transaction confirmations, fee billing, current balances, etc.

Item 14 - Client Referrals and Other Compensation

The Firm does not currently have arrangements, nor receives compensation for any Client referrals. The Firm also does compensate persons and/or entities for Client referrals.

Item 15 - Custody

The Client accounts will be opened, and all assets will be held at TD Ameritrade Institutional in the Client's own name. The Firm will never have custody of any assets or securities in the Client's account. As per **regulatory interpretation**, the Firm is considered to have a form of indirect custody, due to the fact that the Firm authorizes the custodian to withdraw and pay advisory and management fees to the Firm and/or the TPIA as agreed upon and authorized by the Client as per the Investment Management Agreement.

The Custodian will send monthly notifications to the Client by email when their latest statement is ready for review.

The Firm and its IARs advise the Client to always review their statements carefully. If the Client finds any discrepancies or has any questions, concerns, or simply forgot how to access their account online, they can contact their IAR, call 1-877-238-1680 and ask for the Client Relations Manager, or email your concerns to info@cjadvisor.com.

Item 16 - Investment Discretion

The Client may choose to have a discretionary or non-discretionary asset management account with the Firm. Discretionary asset management accounts allow your IAR or TPIA to place trades in your account without contacting you prior to each trade to obtain permission.

Our discretionary authority includes the ability to do the following without contacting the Client:

- determine the security to buy or sell; and/or
- determine the amount of the security to buy or sell.

This decision will be made with your IAR at the time you open your account and is determined by choosing the discretionary or non-discretionary authority when completing the Investment Management Agreement. The Client may also change/amend such limitations by once again providing us with written instructions.

Item 17 - Voting Client Securities

The Firm, IAR or TPIAs do not accept the authority to vote proxies on your behalf. You will receive proxies and other related paperwork directly from your custodian. Upon request, we will answer questions about voting for a specific proxy solicitation.

Item 18 - Financial Information

Under no circumstances does the Firm require or solicit traditional advisory fees for asset under management (AUM) services in excess of \$1,200.00 per Client more than six (6) months in advance of services rendered. Therefore, we are not required to include a financial statement.

As a Firm that has discretionary authority and a form of limited custody of the Client's accounts via the custodian directly deducting the Client fees from their accounts, we are required to disclose any financial condition that is reasonably likely to impair our ability to meet our contractual obligations. Currently, there are no financial conditions that would impair our ability to meet our contractual commitments to the Clients. Should any arise, the Firm will notify the Client according to SEC guidelines.

Our Firm has not been the subject of a bankruptcy petition at any time.
